

**I work
without
rights.**

Do you care?

- *Most women **work**.*
- *But most women are not seen as **workers**.*
- *They have **no social benefits** or **protection**.*
- *Worse, they have **no rights as workers**.*

Women's Right to Livelihood: A Human rights issue

The path to impacting and ensuring women's rights is long. It also needs strategic orchestration of many arms of social justice. We invite you and your organization to join PWESCR in this endeavour to develop a shared vision and to strengthen partnerships to advance women's human rights. Your input based on your experiences in this area would be critical for effective conceptualizing.

We look forward to hearing from you.
