

Our Livelihoods are Our Human Rights

Advance Women's Human Right
to Livelihoods: Join a Global Network

Livelihoods are Every Woman's Human Right

PWESCR, in partnership with several organizations worldwide, initiated a Global Network on Women's Right to livelihoods. The Network seeks to expand the concept of women's human rights so that the right to livelihoods is recognised as a basic human right, to advance the lives of women and their families in dignity.

PWESCR invites you to join the Network by sharing your thoughts on issues of livelihoods?

1. What is the right to livelihoods? How would you define it?
2. What are the challenges women face regarding livelihoods?
3. What are the strategies being used by women to address these challenges? What are the success stories?
4. Where are the gaps?

What needs to happen to fill these gaps at the international level, regional level, and/or national level?
